## Norton Announces New Switches to Replace Obsolete 673 and 674

Norton Door Controls is pleased to announce the addition of four new door switches for use with the 6900 Series PowerMatic® and 5700 Series LEO® power door operators.

**691** – Hardwired  
15amp @ 125 VAC

**692** – RF (433 MHz)

Stainless Steel with blue letters

**693** – Hardwired  
15amp @ 125VAC

**694** – RF (433 MHz)

Stainless Steel with blue letters

The 6" round switches may be surface or flush mounted. **Note: If surface mounted, the switches will project 2" from wall.** The 691 and 693 switches, which replace current models 673 and 674, may also be mounted using a single or double gang box. If gang box mounted, the adapter plate and switch plate will project 5/8" from wall.

Discontinued	New
